AMERICAN TURNER'S ANTI-SPAM POLICY

What is spam?

In the context of electronic messaging, spam refers to unsolicited, bulk or indiscriminate messages, typically sent for a commercial purpose.

American Turners has a zero-tolerance spam policy.

Automated spam filtering

American Turner's messaging systems automatically scan all incoming email messages, and filter-out messages that appear to be spam. And any commercial messaging systems used by American Turners for the purposes of sending correspondence will have the same automatic spam filtering in place.

Problems with spam filtering

No message filtering system is 100% accurate, and from time to time legitimate messages will be filtered-out by American Turner's systems or commercial systems that we use.

If you believe this has happened to a message you have sent, please advise the message recipient by another means.

You can reduce the risk of a message being caught by the spam filters by sending the message in plain text (i.e. no HTML), removing any attachments, and ensuring that your messages are scanned for malware before dispatch.

User spam

American Turners provides a facility that enables users to send [email messages / private messages] to others. Users must not use this facility to send unsolicited, bulk or indiscriminate messages, whether or not for commercial purposes.

Receipt of unwanted messages from American Turners

In the unlikely event that you receive any message from American Turners or sent using American Turner's systems that may be considered to be spam, please contact the American Turners National Office using the details below and the matter will be investigated.

Changes to this anti-spam policy

American Turners may amend this anti-spam policy at any time by publishing a new version.

Contact us

Should you have any questions about this anti-spam policy, please contact the American Turners National Office using the details set out below:
